PROFILE

A skilled software developer with a Bachelor of Business Studies and Computing Science (HBSCTC) from the University of Zimbabwe. Experienced in creating impactful software solutions for a major commercial bank, a leading stock broking company, and an international software firm. Seeking a challenging opportunity to leverage my expertise and contribute to a dynamic team.

EXPERIENCE

Quintessence Software, Cape Town, Remote **May 2023 - Present** Software Developer

As a key member of the software engineering team, I contributed to dynamic, data-intensive applications vital for business operations. My role included:

- **Frontend Development:** Angular, SvelteKit
- **Backend API Development:** .NET Core, Python
- **Database Management:** SQL Server
- **Collaboration:** Worked with product design and development teams, data engineers, and clients
- **Technologies:** Azure
- **Skills:** Agile development, teamwork

Jemina Capital, Harare, On-site **September 2021 - April 2022 & November 2022 - April 2023** Software Developer/Analyst

Led the development of digital products to enhance internal processes and grow the client base. Conducted market analysis and delivered reports for stock traders.

- **Product Design & Development:** Utilized Java Spring Boot, VueJS, and Flutter for creating robust digital solutions.
- **Software Infrastructure:** Managed microservices architecture to ensure scalable and efficient systems.
- **IT Security:** Implemented comprehensive security measures to protect IT assets.
- **Market Research & Analysis:** Conducted securities market research to provide actionable insights and support decision-making.

AFC Commercial Bank, Harare, On-site **June 2022 - October 2022** Digital Products Developer (Temp position)

As a key member of the Digital Transformations department, I enhanced customer engagement by designing and developing digital products, including the AFC Mobile Banking app.

- **Digital Product Development:** Designed and developed with Flutter, Angular, FastAPI, Laravel, and Spring Boot digital products.
- **Customer Engagement:** Improved user interactions and satisfaction through innovative digital solutions.
